DATA SHEET

SICHTBETONKEGEL - for cone with fitting length 10 mm

Description

Prefabricated cone in high quality exposed concrete to close tie holes. Suitable for cone 22 with fitting length 10mm. After removing the cone, the exposed concrete cone is glued into the conical opening. A small shadow gap is left.

Application

After removing the cone, the cone is glued in place with the fibre concrete adhesive. The adhesive surfaces must be freed from dust and other dirt beforehand. The usability of the product in the respective installation situation must be checked by the user!

Material

- Cast concrete
- Polyolefin PO (High-density polyethylene HD-PE + Polypropylene PP)
- Polypropylene (PP)
- Free from PVC, CFC and HFC
- Without substances of very high concern according to ECHA candidate list (REACH Regulation)

Packaging

- Free of halogen-containing compounds, azo dyes, flame retardants
