DATA SHEET

MATTENVERBINDER

Description

Spacer with iron Ø 5 mm to secure the distance between the reinforcement mats and to maintain the correct concrete cover towards the formwork.

Application

The Mattenverbinder is to be placed on the reinforcement mats in such a way that the correct distance between the reinforcement mats and the concrete cover to the formwork is maintained. The usability of the product in the respective installation situation must be checked by the user! Further information on the arrangement and installation distances can be found in the relevant DBV leaflets.

Material

- Polyolefin PO (High-density polyethylene HD-PE + Polypropylene PP)
- Steel
- Free from PVC, CFC and HFC
- Without substances of very high concern according to ECHA candidate list (REACH Regulation)

Packaging

- Free of halogen-containing compounds, azo dyes, flame retardants
