DATA SHEET

RAZZO "1"

Description

Spacer for the production of prefabricated hollow walls. Efficient attachment by inserting the shoe under the reinforcement. Immediate secure standing of the spacer.

Application

The hollow or double wall spacer is mounted in the lower reinforcement and placed on the formwork table. The first wall is concreted with the spacer in place, followed by the second wall. The usability of the product in the respective installation situation must be checked by the user! Further information on the arrangement and installation distances can be found in the relevant DBV leaflets.

Material

- Polyolefin PO (High-density polyethylene HD-PE + Polypropylene PP)
- Polypropylene Copolymer (PPC)
- Steel
- Free from PVC, CFC and HFC
- Without substances of very high concern according to ECHA candidate list (REACH Regulation)

Packaging

- Free of halogen-containing compounds, azo dyes, flame retardants
