DATA SHEET

HOHLWANDDÜBEL-PLUS MASSIVWAND "M" for magnet

Description

Hohlwanddübel-Plus for temporary fastening of props on solid walls in the assembly state. The Hohlwanddübel-Plus is positioned on the steel formwork with the reusable magnet. After stripping the formwork, the magnet usually remains on the formwork due to its high adhesive force.
Only the approved MULTI-MONTI®-plus SSK 16 x 90 mm concrete screw may be used for attaching the prop to the Hohlwanddübel-Plus. Supplied without magnet, screw and washer.

Application

The Hohlwanddübel is attached to the formwork table with the appropriate magnet. The usability of the product in the respective installation situation must be checked by the user!

Material

- Polyoxymethylene (POM)
- Free from PVC, CFC and HFC
- Without substances of very high concern according to ECHA candidate list (REACH Regulation)

Packaging

- Free of halogen-containing compounds, azo dyes, flame retardants
