

DRUWA

Description

Large-area spacer with high step stability for the lower reinforcement. Because of its zigzag shape and the staggered feet, a good concrete flow is guaranteed. By simply turning it over, the DRUWA can also be used on soft surfaces. Due to its special shape, the DRUWA is easily stackable. This results in optimal freight cost savings and storage space utilisation!

Application

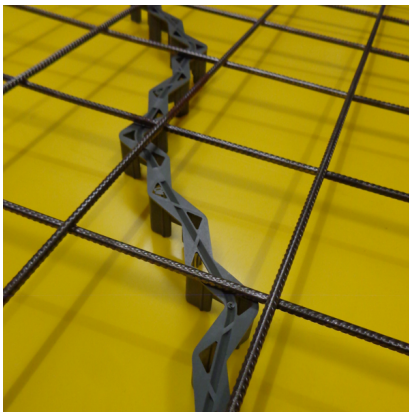

The spacer is laid diagonally to the reinforcement to ensure the required concrete cover. The usability of the product in the respective installation situation must be checked by the user! Further information on the arrangement and installation distances can be found in the relevant DBV leaflets.

Material

- Polyolefin PO (High-density polyethylene HD-PE + Polypropylene PP)
- Free from PVC, CFC and HFC
- Without substances of very high concern according to ECHA candidate list (REACH Regulation)

Packaging

- Free of halogen-containing compounds, azo dyes, flame retardants

DATA SHEET

DRUWA

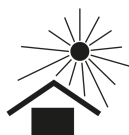

Item no.	Concrete cover mm	Length m	Pcs/ Bundle	Pcs/ Pallet
DUW15/80	15	0,80	70	4.410
DUW20/80	20	0,80	60	3.780
DUW25/80	25	0,80	40	2.800
DUW30/80	30	0,80	40	2.520
DUW35/80	35	0,80	30	2.100
DUW40/80	40	0,80	30	1.890
DUW50/80	50	0,80	20	1.540
