

NEVOSAFE®-PLUS SCHUTZKAPPE - with steel core**Description**

Reusable protective cap made of weatherproof, impact-resistant plastic with steel insert. Improved protection due to very large mushroom head with steel insert and 110 mm diameter. According to the EMPA test report, the NEVOSAFE®-PLUS protective cap provides safe and reliable protection against drilling when dropped from a height of 3 m at 100 kg. The protective cap is twisted onto the rebars, the ribbed construction ensures a firm and strong fit on the rebars. The signal colours yellow, red or orange also increase the visibility of the danger points. Can be used horizontally and vertically.

Application

The protective caps are screwed onto the exposed reinforcement bars. The usability of the product in the respective installation situation must be checked by the user!

Material

- Galvanised steel sheet
- Polypropylene Copolymer (PPC)
- Free from PVC, CFC and HFC
- Without substances of very high concern according to ECHA candidate list (REACH Regulation)

Packaging

- Free of halogen-containing compounds, azo dyes, flame retardants

NEVOSAFE®-PLUS SCHUTZKAPPE - with steel core

Item no.	For Ø iron mm	Pcs/ Box	Pcs/ Pallet
SKAS20/36	20 - 36	70	1.680
SKAS6/20	6 - 20	90	2.160

- Low puncture possibility due to **reinforcement**.
- Very large **mushroom head with steel insert** and 110 mm diameter for better protection.

- **Reusability due to special rib design** (twisting on / twisting off)! If the protective cap is screwed onto smaller reinforcement bars than before, the special ribbed construction still ensures a hold. This is not possible with conventional protective caps!
